SECTION I - INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in mutual fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk, including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invest fluctuates, the value of your investment in the Scheme may go up or down. In addition to the factors that affect the value of individual investments in the Scheme, the NAV of the Scheme can be expected to fluctuate with movements in the broader equity and bond markets and may be influenced by factors affecting capital and money markets in general, such as, but not limited to, changes in interest rates, currency exchange rates, changes in Governmental policies, taxation, political, economic or other developments and increased volatility in the stock and bond markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 1 lakh made by it towards setting up the Mutual Fund.
- The present Scheme is not a guaranteed or assured return Scheme.

Additional Risk Factors for Foreign Portfolio Investors:

1. Political Risk

Investments in mutual fund Units in India may be materially adversely impacted by Indian politics and changes in the political scenario in India either at the central, state or local level. Actions of the central government or respective state governments in the future could have a significant effect on the Indian economy, which could affect companies, general business and market conditions, prices and yields of securities in which the Scheme invest.

The occurrence of selective unrest or external tensions could adversely affect the political and economic stability of India and consequently have an impact on the securities in which the Scheme invests. Delays or changes in the development of conducive policy frameworks could also have an impact on the securities in which the Scheme invests.

2. Economic Risk

A slowdown in economic growth or macro-economic imbalances such as the increase in central and state level fiscal deficits may adversely affect investments in the country. The underlying growth in the economy is expected to have a direct impact on the volume of new investments in the country.

3. Foreign Currency Risk

The Scheme is denominated in Indian Rupees (INR) which is different from the home currency for Foreign Portfolio Investors in the mutual fund Units. The INR value of investments when translated into home currency by Foreign Portfolio Investors could be lower because of the currency movements. The AMC does not manage currency risk for Foreign Portfolio Investors and it is the sole responsibility of the Foreign Portfolio Investors to manage or reduce currency risk on their own. The Sponsor/Fund/Trustees/ AMC are not liable for any loss to Foreign Investors arising from such changes in exchange rates.

4. Convertibility and Transferability Risk

In the event capital and exchange controls are imposed by the government authorities, it would prevent Foreign Portfolio Investors' ability to convert INR into home currency and/or transfer funds outside India. The convertibility and transferability of INR proceeds into home currency is the responsibility of the

Foreign Portfolio Investors.

Specific Risk Factors

- **Liquidity and Settlement Risk:**

The liquidity of a fixed income security may change, depending on market conditions leading to changes in the liquidity premium attached to the price of such securities. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio. Different segments of the financial markets have different settlement cycle/periods and such settlement cycle/periods may be impacted by unforeseen circumstances, leading to Settlement Risk. This can adversely affect the ability of the Fund to swiftly execute trading strategies which can lead to adverse movements in NAV.

- **Credit Risk:**

Credit risk is the risk that the issuer of a debenture/ bond or a money market instrument may default on interest and/or principal payment obligations. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds and SDLs carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

- **Term Structure of Interest Rates (TSIR) Risk:**

The NAV of the Scheme' Units, to the extent that the Scheme are invested in fixed income securities, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline.

- **Re-investment Risk:**

The investments made by the Scheme are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the 'interest on interest' component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

- **Spread risk:**

In a floating rate security, the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

- **Risks associated with the scheme**

- a. **Passive Investments:** As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select securities or to take defensive positions in declining markets.
- b. **Tracking Error & Tracking Difference Risk:** Tracking Error & Tracking difference is divergence of the performance (return) of the Fund's portfolio from that of the Underlying Index. Based on that the availability of issuances of SDLs and Government Securities, it is expected that the Portfolio allocation could be different than that of underlying index allocation and could result in Tracking Error & Tracking difference. That said, the risk parameters of the portfolio of the Scheme and underlying index could be similar. The Fund will endeavor to keep the tracking error & tracking difference as low as possible. Under normal circumstances, the annualized tracking difference averaged over one year period error is not expected to exceed 1.25% per annum. Tracking error & Tracking Difference could

be the result of a variety of factors including but not limited to:

- a. Delay in the purchase or non-availability of securities which are part of the Index
 - b. Delay in liquidation of securities which have been removed by the Index
 - c. Due to timing of transactions either on RFQ platforms or in open market
 - d. Due to investment in out of index investments such as treasury bills, Repo in Government securities and TREPS
 - e. Due to over-weight / under-weight investment in bonds of eligible issuers at ISIN level which are part of the Index
 - f. Due to mismatch in the weight of the issuers forming part of the Index and the Scheme throughout life of the Scheme.
 - g. Change in asset allocation between the Index and the Scheme in the last year of the Scheme.
 - h. Difference in valuation of underlying bonds by the Index Provider and AMC's valuation providers.
- c. **Trade Execution Risk on RFQ Platforms:** Current SEBI regulations mandates Mutual Funds to execute certain % of their monthly trading volume in corporate bonds on RFQ platforms. RFQ platforms are peer-to-peer platforms and are still in development stage. Therefore, they have lower level of secondary market liquidity. Mandatory execution of trades on RFQ among MFs may hamper trade execution efficiency during periods of heavy outflows.
- **Risks Associated with exposure in Tri-party Repo (TREPS):** DSP mutual fund is a member of Securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India Limited (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally by CCIL which helps reduce the settlement and counterparty risks for these transactions. CCIL manages the risks through its risk management processes such that the ultimate risk to its members from fails is either eliminated or reduced to the minimum. CCIL thus maintains margin and default fund contributions of each member for various business segments as per the terms of its Bye Laws, Rules and Regulations to cover potential losses arising from the default member.

In an event of any clearing member failing to honor settlement obligations, the margin and default Fund is utilized to complete the settlement. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been utilized, CCIL's own contribution is used to meet the losses and thereafter any residual loss is appropriated from the contributions of the non-defaulting members.

Thus the scheme is subject to risk of the margin and default fund contribution being appropriated in the case of failure of any settlement obligations. Further, the scheme's contribution may be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

- **Risks Associated with Transaction in Units Through Stock Exchange Mechanism**
In respect of transactions in Units of the Scheme through NSE, BSE and/or ICEX or any other recognised stock exchange, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by NSE, BSE and/or ICEX or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by NSE, BSE and/or ICEX or such other recognised exchange in this regard.
- **Risks associated with creation of segregated portfolio**
 - a) Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer.
 - b) Security comprises of segregated portfolio may not realise any value.
 - c) Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

RISK MANAGEMENT STRATEGIES

The Scheme will invest in PSU Bonds / SDLs which are constituents of the underlying Index subject to compliance with SEBI circular no. SEBI/HO/IMD/DF3/CIR/P/2019/147 dated November 29, 2019 for Norms for Debt Exchange Traded Funds (ETFs)/Index Funds. Based on the availability of issuances, it is expected that the portfolio allocation could be different than that of underlying index allocation and could result in Tracking Error & Tracking Difference. That said, broad risk parameters of the portfolio of the Scheme such as credit rating, weighted average YTM, weighted average maturity, asset allocation etc. are expected to be similar to the Underlying Index.

The Scheme's exposure to money market instruments will be in line with the asset allocation table. This allocation will be monitored periodically and it shall be ensured that investments are made in accordance with the Scheme objective and within the regulatory and internal investment restrictions prescribed from time to time.

- **Market Risk:**

The Scheme, being a Target Maturity Date index fund structure, is expected to follow a Buy and Hold investment strategy in a passive manner. Investors who remain invested until the maturity of the Scheme are expected to mitigate intermittent market / volatility risk to large extent.

- **Liquidity Risk:**

The Scheme intends to invest in government securities & SDLs issued by State governments. In general, government securities enjoy higher level of secondary market liquidity.

- **Credit Risk:**

The Scheme intends to invest in government securities & SDLs issued by State governments. As a result the bond issued by them are considered as relatively safe from a credit perspective. SDLs are issued and serviced by the RBI. SDLs are eligible for SLR investments.

- **Term Structure of Interest Rates (TSIR) Risk:**

The Scheme being passively managed and a Target Maturity Date index fund structure, is expected to follow a Buy and Hold investment strategy in a passive manner. All investments are within the maturity date of the Scheme and the underlying Index.

- **Risk Management & Liquidity Management tools:**

DSP Mutual Fund schemes as mandated wide various SEBI & AMFI circulars, have adopted the following for risk management & liquidity management

1. **Potential Risk Matrix (PRC) & Risk-o-meter:** Investors are requested to review this scheme's Potential Risk Matrix (PRC) to understand the maximum risk that this scheme will run as per design and & Risk-o-meter to understand periodical measurement of that risk on a regular basis. Investor are suggested to read about various disclosures under the section "PERIODIC DISCLOSURES" pertaining to "Compliance with Potential Risk Class Matrix norms" & "Risk-o-meter" to understand in detail the disclosure frequency and remedial measures in case of breaches in the boundaries.
2. **Mandatory Liquidity requirement:** DSP mutual fund scheme adopts the Liquidity Risk Management framework mandated by SEBI and AMFI which helps estimates liquidity requirement by determining liquidity risk arising from the liability side and tries to covers all potential liquidity risk scenarios up to agreed confidence interval and has mandated remedial measures both for managing the risk on an ongoing basis (LRaR & LCRaR) as well as action plan in case there is a difference between actual outcome and projected outcome. Investors can refer to the circular 135/ BP/93/ 2021-22 dated July 24, 2021 and subsequent circulars for detail understanding on the Liquidity Risk Management Framework.

Further Investment manager also evaluates and monitors the Asset Liability Mismatch (ALM) which addresses the gap in the estimated potential liquidity requirement over a 90-day period and schemes

investment / assets liquidity to meet the potential requirement and best ensures that scheme has necessary liquidity to meet its liability obligations.

- 3. Stress testing the scheme portfolio:** The investment manager periodically stress test the scheme portfolio to address the asset side risk from an Interest Rate, Credit and Liquidity Risk perspective at an aggregate portfolio level and evaluate the stress in terms of its impact on the NAV of the scheme. The stress test is performed using the methodology and periodicity as mandated by AMFI in consultation to SEBI

Swing Pricing: DSP mutual fund scheme has Swing Pricing policy in place to help in case of severe liquidity stress at an AMC level or a severe dysfunction at market level, the Swing Pricing offers the contingency plan in case of extreme exigencies. Investors are suggested to read the detail disclosure pertaining to this policy in Section II. N. "Swing Pricing Framework"

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors each and no single investor shall account for more than 25% of the corpus of the Scheme(s). These conditions shall be complied with, in each calendar quarter on an average basis, as specified by SEBI. In case of non-fulfillment of the condition of 20 investors in a calendar quarter, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations shall become applicable automatically without any reference from SEBI, and accordingly the Scheme shall be wound up and the units redeemed at the relevant applicable NAV. If there is breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be available and thereafter, the investor who is in breach of the rule, shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption on the applicable Net Asset Value on the 15th day of the notice period.

C. SPECIAL CONSIDERATIONS

- Subject to the SEBI (MF) Regulations, funds managed by the /associates of the Sponsors may invest either directly or indirectly in the Scheme and may acquire a substantial portion of the Scheme Units and collectively constitute a majority investor in the Scheme. Accordingly, redemption of Units held by such funds may have an adverse impact on the value of the Units of the Scheme because of the timing of any such redemption and may impact the ability of other Unit Holders to redeem their respective Units.
- As the liquidity of the Scheme investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for redemption of Units may be significant in the event of an inordinately large number of redemption requests or of a restructuring of the Scheme portfolios. In view of this, the Trustee has the right, in its sole discretion, to limit redemptions under certain circumstances.
- Neither the SID and SAI, nor the Units have been registered in any jurisdiction. M. CREATION OF SEGREGATED PORTFOLIO IN CASE OF CREDIT EVENT

Creation of segregated portfolio shall be subject to guidelines specified by SEBI from time to time and includes the following:

- 1) Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:
 - a) Downgrade of a debt or money market instrument to 'below investment grade', or
 - b) Subsequent downgrades of the said instruments from 'below investment grade', or
 - c) Similar such downgrades of a loan rating

In case of unrated debt or money market instruments of an issuer that does not have any outstanding rated debt or money market instruments, actual default of either the interest or principal amount by the issuer of such instruments shall be considered as a Credit Event for creation of Segregated Portfolio.

- 2) In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as mentioned above and implemented at the ISIN level.
- 3) Creation of segregated portfolio is optional and is at the discretion of the AMC. It shall be created only if the Scheme Information Document (SID) of the scheme has provisions for segregated portfolio with adequate disclosures.

Process for Creation of Segregated Portfolio:

- 1) On the date of credit event, AMC should decide on creation of segregated portfolio. Once AMC decides to segregate portfolio, it should:
 - a) seek approval of trustees prior to creation of the segregated portfolio.
 - b) immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. The Fund will also disclose that the segregation shall be subject to Trustee approval. Additionally, the said press release will be prominently disclosed on the website of the AMC.
 - c) ensure that till the time the trustee approval is received, which in no case shall exceed 1 business day from the day of credit event, the subscription and redemption in the scheme will be suspended for processing with respect to creation of units and payment on redemptions.
- 2) Once Trustee approval is received by the AMC:
 - a) Segregated portfolio will be effective from the day of credit event
 - b) AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information will also be submitted to SEBI.
 - c) An e-mail or SMS will be sent to all unit holders of the concerned scheme.
 - d) The NAV of both segregated and main portfolios will be disclosed from the day of the credit event.
 - e) All existing investors in the scheme as on the day of the credit event will be allotted equal number of units in the segregated portfolio as held in the main portfolio.
 - f) No redemption and subscription will be allowed in the segregated portfolio. However, upon recovery of any money from segregated portfolio, it will be immediately distributed to the investors in proportion to their holding in the segregated portfolio.
 - g) AMC should enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests
 - h) Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
- 3) If the trustees do not approve the proposal to segregate portfolio, AMC will issue a press release immediately informing investors of the same.
- 4) In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

Processing of Subscription and Redemption Proceeds:

All subscription and redemption requests for which NAV of the day of credit event or subsequent day is applicable will be processed as under:

- i. Upon trustees' approval to create a segregated portfolio -
 - Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
 - Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
- ii. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

TER for the Segregated Portfolio

- 1) AMC will not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- 2) The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence. In addition to the TER mentioned above, the legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio as mentioned below.
- 3) The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- 4) The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Explanations:

- 1) The term 'segregated portfolio' means a portfolio, comprising of debt or money market instrument affected by a credit event that has been segregated in a mutual fund scheme.
- 2) The term 'main portfolio' means the scheme portfolio excluding the segregated portfolio.
- 3) The term 'total portfolio' means the scheme portfolio including the securities affected by the credit event.

Risks associated with segregated portfolio

1. Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer.
2. Security comprises of segregated portfolio may not realise any value.
3. Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Disclosure Requirements:

In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:

- a. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.
- b. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the Mutual Fund and the Scheme.
- c. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
- d. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
- e. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance shall clearly reflect the fall in NAV to the extent of

the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.

- f. The disclosures at paragraph 7(d) and 7(e) above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.
- g. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

Monitoring by Trustees:

- a. In order to ensure timely recovery of investments of the segregated portfolio, trustees shall ensure that:
 - i. The AMC puts in sincere efforts to recover the investments of the segregated portfolio.
 - ii. Upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.
 - iii. An Action Taken Report (ATR) on the efforts made by the AMC to recover the investments of the segregated portfolio is placed in every trustee meeting till the investments are fully recovered/ written-off.
 - iv. The trustees shall monitor the compliance of this circular and disclose in the half-yearly trustee reports filed with SEBI, the compliance in respect of every segregated portfolio created.
- b. In order to avoid mis-use of segregated portfolio, trustees shall ensure to have a mechanism in place to negatively impact the performance incentives of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of the AMC, including claw back of such amount to the segregated portfolio of the scheme.

N. Swing Pricing Framework

SEBI introduced swing pricing framework for open ended debt mutual fund schemes (except overnight funds, Gilt funds and Gilt with 10-year maturity funds) through circular SEBI/HO/IMD/IMD-II DOF3/P/CIR/2021/631 dated September 29, 2021 (SEBI Circular). The swing pricing is made applicable only for scenarios related to net outflows from the schemes. Further the circular mandates full swing during market dislocation times for high risk open ended debt schemes.

Pursuant to the SEBI Circular the below swing pricing framework will be adapted during the market dislocation times. Currently, Fund has decided not to adopt policy pertaining to swing pricing during normal times.

Meaning of Swing Pricing:

Swing pricing refers to a process of adjusting scheme's net asset value (NAV) to effectively pass on transaction costs stemming from net capital activity (i.e., flows into or out of the fund) to the investors associated with that activity during the life of a fund, excluding ramp-up period or termination. In a liquidity-challenged environment, quoted bid/ask spreads and overall trading cost can widen and may not be representative of the executed prices that can be achieved in the market.

Swing pricing can be a useful mechanism to contribute to protect the interests of existing investors, specifically from the dilution of their holdings and value of the investor's capital and thus contribute to protect the value of the investors capital. Swing pricing mechanism is a tools which can help protect remaining investors during any of the below instances when:

- Any large investors choose to redeem where their actions would have material market impact costs
- More active trading takes place for the scheme or
- Scheme hold illiquid assets.

Market Dislocation:

SEBI will determine 'market dislocation' either based on AMFI's recommendation or suo moto. SEBI shall notify once market dislocation is declared that swing pricing will be applicable for a specified period. Subsequent to the announcement of market dislocation, the swing pricing framework shall be mandated only for open ended debt schemes (except overnight funds, Gilt funds and Gilt with 10-year maturity funds) in terms of para B of the Annexure to the SEBI circular SEBI/HO/IMD/DF3/CIR/P/2017/114 dated October 6, 2017, which:

- a. has High or Very High risk on the risk-o-meter in terms of SEBI circular SEBI/HO/IMD/DF3/CIR/P/2020/197 dated October 5, 2020 (as of the most recent period at the time of declaration of market dislocation) and
- b. classifies themselves in the cells A-III, B-II, B-III, C-I, C-II and C-III of Potential Risk Class (PRC) Matrix in terms of SEBI circular SEBI/HO/IMD/IMD-II DOF3/P/CIR/2021/573 dated June 7, 2021.

Swing Threshold:

Swing threshold refers to a pre-determined threshold set in terms of percentage of AUM that trigger the adjustment in the NAV (swinging of the NAV). During the market dislocation times swing pricing will be adapted when the scheme has net outflow irrespective of any swing threshold. Swing pricing shall be made applicable to all unitholders at PAN level for (redemptions and subscriptions) except for redemptions up to INR 2 lacs for each mutual fund scheme.

Swing factor:

Swing factor refers to adjustment factor set in terms of percentage by the extent NAV is adjusted / swung. As per SEBI circular no SEBI/HO/IMD/IMD-II DOF3/P/CIR/2021/573 dated June 7, 2021, the PRC matrix assigned to DSPBPSF and DSPFF is A-III and hence mandatory swing during market dislocation, in case of net outflow from the schemes, the NAV would be adjusted (swung) downwards by 1 %.

Disclosures pertaining to NAV adjusted for swing factor:

The Scheme performance shall be computed based on Scheme NAV before Swing adjustment i.e. the unswung NAV.

Disclosures pertaining to NAV adjusted for swing factor along with the performance impact shall be made by the AMCs in following format in SIDs and in scheme wise Annual Reports and Abridged summary and the same may be disclosed on website prominently only if swing pricing framework has been made applicable for the said mutual fund scheme.

IDCW Policy	<p>(i) Growth Option</p> <p>Under this option, the Mutual Fund will not declare any IDCW. The income earned by the Scheme will remain invested in the Scheme concerned and will be reflected in the NAV. This Option is suitable for investors who are not looking for current income but who have invested only with the intention of capital appreciation. Moreover, if Units under this Option are</p>																																

held as a capital asset for a period of greater than 12 months from the date of acquisition, Unit Holders should get the benefit of long term capital gains tax. Please refer the section “A. Taxation on investing in Mutual Funds” under “**Clause VIII. Tax & Legal & General Information**” in the SAI.

(ii) Income Distribution cum Capital Withdrawal option (IDCW)

The above option is suited for investors seeking income through IDCW declared by the Scheme. Only Unit Holders opting for such option will receive IDCW. Under this option, the Scheme envisage declaring IDCW comprising substantially of net income and realized gains.

The option stated in point (ii) above, in turn offer two sub- options i.e. “Payout of IDCW” or “Reinvestment of IDCW”

• **Payout of IDCW**

As per the SEBI (MF) Regulations, the Mutual Fund shall dispatch to the Unit Holders, IDCW warrants within 7 working days of the record date of IDCW. IDCW will be payable to those Unit Holders whose names appear in the Register of Unit Holders on the date (Record Date). IDCW will be paid by cheque, net of taxes as may be applicable. Unit Holders will also have the option of direct payment of IDCW to the bank account. The cheques will be drawn in the name of the sole/first holder and will be posted to the registered address of the sole/first holder as indicated in the original application form entirely at the risk of the unitholders. **To safeguard the interest of Unit Holders from loss or theft of IDCW cheques, investors should provide the name of their bank, branch and account number in the application form. IDCW cheques will be sent to the Unit Holder after incorporating such information.**

• If the IDCW amount payable (net of tax deducted at source, wherever applicable) under the IDCW Payout sub-option of the Scheme is for an amount equal to or less than (i) Rs. 100/- in the then such IDCW will compulsorily and automatically reinvested in the Scheme/Plan by issuing additional Units of the Scheme under Regular Plan/ Direct Plan at the Applicable NAV on the next Business day after the Record Date. There shall be no load on IDCW so reinvested.

• **Reinvestment of IDCW**

Under this sub-option, IDCW will be reinvested by way of additional Units of the Scheme instead of being paid out. Such reinvestment will be at the applicable NAV on the next Business Day after the Record Date. There shall however, be no entry load/exit load, if any, on the IDCW so re-invested. The IDCW so reinvested shall be constructive payment of IDCW to the Unit Holders and constructive receipt of the same amount from each Unit Holder, for reinvestment in Units. The additional Units issued under this option and held as capital asset would get the benefit of long term capital gains if sold after being held for greater than 12 months. For this purpose, 12 months will be computed from the date when such additional Units are issued/allotted.

Effect of IDCW: The NAV of the Unit Holders in IDCW Option will stand reduced by the amount of IDCW declared.

On declaration of IDCW, the NAV of the respective IDCW Options will further stand reduced by the applicable statutory levy / surcharge/cess/ any other levy payable by the scheme in respect of separate category of

The investor agrees that the recipient may adopt additional security measures including signature verification, telephone call backs or a combination of the same, which may be recorded and the investor consents to such recording and agrees to co-operate with the recipient to enable confirmation of such transaction requests. In consideration of the Recipient from time to time accepting and at its sole discretion (including but not limited to the AMC extending/ discontinuing such facilities from time to time) acting on any Electronic Transaction request received / purporting to be received from the investor, the investor agrees to indemnify and keep indemnified the AMC, Directors, employees, agents, representatives of the AMC, Mutual Fund and Trustees from and against all actions, claims, demands, liabilities, obligations, losses, damages, costs and expenses of whatever nature (whether actual or contingent) directly or indirectly suffered or incurred, sustained by or threatened against the indemnified parties whatsoever arising from or in connection with or any way relating to the indemnified parties in good faith accepting and acting on Electronic Transaction requests including relying upon such transaction requests purporting to come from the investor even though it may not come from the Investor. However, in cases of holding specified as 'Anyone or Survivor', any one of the Unit Holders will have the power to make

The investor will not hold the Mutual Fund or the AMC or the Registrar responsible for any non-receipt or delay of receipt of redemption & IDCW proceeds due to any negligence or deficiency in service by the courier company, postal authorities or the bank executing direct credits, or due to incorrect bank account details provided by the investor.

In case of redemptions, Unit holders should note that Two Factor Authentication [2FA] is mandatory for all redemption / switches including STP/SWP submitted through electronic mode. - a) Liquidity issues: when market at large becomes illiquid affecting almost all securities rather than any issuer specific security;
- b) Market failures, exchange closures: when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies;
- c) Operational issues: when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out).

Restriction on / suspension of redemption of Units of the Scheme(s) may be imposed for a specified period of time not exceeding 10 working days in any 90 days period.

When restriction on / suspension of redemption of Units of the Scheme(s) is imposed, the following procedure shall be applied:

However, this is only applicable if the value of redemption is such that some or all of the freshly purchased Units may have to be redeemed to effect the full redemption.

22. Restrictions, if any, on the right to freely retain or dispose off Units being offered

The Trustee may, in the general interest of Unit Holders, keeping in view the unforeseen circumstances/unusual market conditions, limit the total number of Units which may be redeemed on any Business Day to 5% of the total number of Units then in issue under the Scheme (or such higher percentage as the Trustees may determine).

Any Units, which by virtue of these limitations are not redeemed on a particular Business Day, will be carried forward for redemption to the next Business Day, in order of receipt. Redemptions so carried forward will be priced on the basis of the Redemption Price of the Business Day or Non Business Day (if and as applicable) on which redemption is made. Under such circumstances, to the extent multiple redemption requests are received at the same time on a single Business Day, redemptions will be made on pro-rata basis, based on the size of each redemption request, the balance amount being carried forward for redemption to the next Business Day(s).

Also, in the event of an order being received from any regulatory authority/body, directing attachment of the Units of any investor, redemption of Units will be restricted in due compliance of such order.
